

Agustin Machiavello

Full-Stack Web Developer | Python & TypeScript

Girona, Spain agmachiavello@gmail.com +34 611 63 68 02 [Portfolio](#) [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-stack developer with 6+ years of experience in React and Python backend systems. Currently building a robot fleet management system at Ekumen, covering FastAPI services, message brokers, infrastructure and a TypeScript React frontend. Previously Frontend Tech Lead at Fundcraft, guiding technical decisions, mentoring developers and architecting scalable UI solutions. Passionate about intuitive user experiences, robust codebases and bridging the gap between design and engineering.

TECHNICAL SKILLS

Frontend	Backend	Tools & Practices
React & React Hooks	Python / FastAPI / Django	Nginx & TLS certificates
TypeScript / JavaScript	SQLAlchemy	Load testing
Next.js	REST APIs	AWS
HTML5 / CSS3	Message brokers	Git / GitHub & CI/CD
UI/UX Design Systems	Database Design	AI-assisted programming
Responsive Design	VDA5050	Technical Leadership & Code Review

PROFESSIONAL EXPERIENCE

Ekumen — Full Stack Web Developer

December 2025 - Present | Spain

- Building a **robot fleet management system** end to end, from backend services to operator-facing interfaces
- Developing **FastAPI** and **SQLAlchemy** backends and a **TypeScript React** frontend
- Integrating robots through **VDA5050**, with **message brokers**, **Nginx**, databases and **certificate** management
- Running **load testing** and applying **AI-assisted programming** in daily development

Fundcraft — Senior Frontend Developer & Frontend Tech Lead

October 2021 - November 2025 | Spain

- Promoted to **Frontend Tech Lead** in April 2025, guiding technical strategy and architectural decisions for the frontend team
- Architected and implemented **UI foundations and design systems** resulting in a more cohesive user experience and faster feature delivery
- Led **component abstraction and optimization initiatives** for large-scale projects, resulting in more maintainable and reusable codebases
- Established **frontend tooling and development standards** that streamlined workflows and improved code quality across the team
- Provided **technical mentorship and design leadership** to frontend developers, conducting code reviews and pair programming sessions
- Facilitated **cross-functional communication** between developers, designers, and non-technical stakeholders

- Drove **technical assessments and ownership** of critical features, taking end-to-end responsibility for delivery and quality

Prometeo API — Full-Stack Developer

March 2021 - October 2021 | Uruguay

- Developed **REST APIs** with Python/Django and implemented payment systems, subscription plans, and interactive client demos
- Created **API documentation** and enhanced frontend interfaces through close collaboration with designers
- Performed **web scraping operations** to integrate financial data from banking institutions

Om-lab — Full-Stack Developer & Lead Developer

April 2020 - March 2021 | USA/Uruguay

- Led **multiple e-commerce projects** as team lead, managing remote teams and serving as technical liaison between USA clients and developers
- Delivered full-stack solutions on schedule while managing **project timelines and estimations**

Agile Software — Full-Stack Developer

April 2019 - December 2019 | Uruguay

- Built **REST APIs** with Django for mobile and web platforms across three concurrent projects

EDUCATION & CERTIFICATIONS

Bachelor's Degree in Computer Science

UCU - Catholic University of Uruguay
March 2017 - March 2021

GeneXus Junior Analyst (2019) · Platzi: JavaScript Fundamentals (2019), Advanced Django (2019), Linux Server Administration (2019) · Winning team, CBCat IDX23 blue economy blockchain challenge

Programmer Analyst

UCU - Catholic University of Uruguay
Completed January 2020
